1. SITE IDENTIFICATION

1.1 Type A	1.2 Site code BG0002020	Back to top
----------------------	-----------------------------------	-----------------------------

1.3 Site name

Radinchevo

1.4 First Compilation date 2005-10	1.5 Update date 2015-07
--	-----------------------------------

1.6 Respondent:

Name/Organisation:	Ministry of Environment and Water, "National Nature Protection Service" Directorate
Address:	Sofia Kn. Maria Luiza Blvd. 22 1000 Sofia
Email:	natura2000@moew.government.bg

1.7 Site indication and designation / classification dates

Date site classified as SPA:	2007-03
National legal reference of SPA designation	Site classified as SPA by Council of Ministers Decision No. 122/02.03.2007 (promulgated SG 21/2007).
Explanation(s):	Site classified as SPA by Council of Ministers Decision No. 122/02.03.2007 (promulgated SG 21/2007). Issued designation order by the Minister of Environment and Water with prohibitions and restrictions on activities contradicting the conservation objectives of the site - Order No. RD - 783/29.10.2008 (promulgated SG 104/2008).

- **Group:** A = Amphibians, B = Birds, F = Fish, Fu = Fungi, I = Invertebrates, L = Lichens, M = Mammals, P = Plants, R = Reptiles
- **CODE:** for Birds, Annex IV and V species the code as provided in the reference portal should be used in addition to the scientific name
- **S:** in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes
- **NP:** in case that a species is no longer present in the site enter: x (optional)
- **Unit:** i = individuals, p = pairs or other units according to the standard list of population units and codes in accordance with Article 12 and 17 reporting, (see [reference portal](#))
- **Cat.:** Abundance categories: C = common, R = rare, V = very rare, P = present
- **Motivation categories:** IV, V: Annex Species (Habitats Directive), A: National Red List data; B: Endemics; C: International Conventions; D: other reasons

Total Habitat Cover	NaN

Other Site Characteristics

Rocky, at certain spots eroded region with shrub vegetation and forests in the south-western Sakar. It is located on the left bank of the Maritsa river, to the north-east of the river, reaching on the east the Yerusalimovo Izvorovo road, on the north the Oryhovo Kolarovo road, on the west a dirt road passing along the ridge over the river Goljamata Reka. The region is occupied mostly by open grasslands farmlands and meadows overgrown with xerothermal grass associations, dominated by *Dichanthium ischaemum*, *Poa bulbosa*, etc., and more rarely with meso-xerothermal grass vegetation. Shrubs of *Paliurus spina-christi* mixed with *Jasminum fruticans* and combined with xerothermal grass formations with Mediterranean elements, like *Nigella damascena*, are dispersed throughout the region. Forests cover only one-third of the territory. These are primary mixed broadleaved forests of *Quercus pubescens* and *Quercus virgiliana* with Mediterranean elements, at places with secondary origin, often mixed with *Carpinus orientalis* (Bondev 1991).

4.2 Quality and importance

Radinchevo is an area representative for birds dependent on dry grassland habitats. It supports 119 bird species, 25 of which are listed in the Red Data Book for Bulgaria (1985). Of the birds occurring there 54 species are of European conservation concern (SPEC) (BirdLife International, 2004), 4 of them being listed in category SPEC 1 as globally threatened, 19 in SPEC 2 and 31 in SPEC 3 as species threatened in Europe. The area provides suitable habitats for 36 species, included in Annex 2 of the Biodiversity Act, which need special conservation measures. Thirty-four of them are listed also in considerable numbers. The Long-legged Buzzard *Buteo rufinus*, Black Stork *Ciconia nigra*, Stone Curlew *Burhinus oedipnemos* and the Masked Shrike *Lanius nubicus* also breed there in significant populations. During migration the Pygmy Cormorant *Phalacrocorax pygmeus*, the Corncrake *Crex crex* occur in the area. The Great Bustard *Otis tarda* have also been recorded in the region in the past (Borisov 1988).

4.3 Threats, pressures and activities with impacts on the site

The most important impacts and activities with high effect on the site

Negative Impacts

5. SITE PROTECTION STATUS (optional)

5.1 Designation types at national and regional level:

[Back to top](#)

Code	Cover [%]	Code	Cover [%]	Code	Cover [%]
BG06	7.0	BG00	93.0		

5.2 Relation of the described site with other sites:

designated at national or regional level:

Type code	Site name	Type	Cover [%]
BG06	BAKARLIYA	+	7.0

designated at international level:

Type	Site name	Type	Cover [%]
Other	IBA	=	100.0

5.3 Site designation (optional)

About 7% of the area is protected by law through designation of the Bakarliyata Protected Area in 2001. The aim is to protect the threatened reptiles, birds, mammals and plants, as well as typical for the Sakar mountain habitats. In 1997 the area was designated as Important Bird Area by BirdLife International.

6. SITE MANAGEMENT

6.1 Body(ies) responsible for the site management:

[Back to top](#)

Organisation:	Regional Inspectorate of Environment and Water -Haskovo;East-Aegean River Basin Directorate;Forestry Department - Svilengrad, Harmanli;
Address:	
Email:	

6.2 Management Plan(s):

An actual management plan does exist:

<input type="checkbox"/> Yes
<input type="checkbox"/> No, but in preparation
<input checked="" type="checkbox"/> No

6.3 Conservation measures (optional)

7. MAP OF THE SITES
